

Muhammad Uvesh Menpurwala

Flutter & Android Developer

Flutter & Android Developer Experienced in building **responsive Flutter MOBILE & WEB applications** with a focus on creating user-friendly designs and smooth functionality. Proficient in working with **MVVM and DDD architectures**, I ensure applications are well-structured, maintainable, and scalable. I'm passionate about crafting practical solutions that meet both user needs and project goals.

HTML5

CSS

JS

OOPS

DSA

PROJECTS

Dasher [🔗](#)

- A multi-functional delivery robot with **two android displays**. The project consists of 9 panels 2 of which were led by me.
- **Main Panel** : Allows robot control via serial commands based on ROS SDK integrated with an Android app.
- **Advertisement Panel** : Displays dynamic content (videos, animations, images) linked to robot actions. Includes a remote application for file transfer and scheduling.
- Dasher incorporates **nine panels**, including: **User Panel** : Enables customers to place orders. **Operator Panel** : Allows order management and delivery. **Admin Panel** : Manages configurations for other panels.
- **Technologies Used** : ROS SDK, BLE, Nearby Connections API, Various Firebase Tools, Dynamic Theme & Forms, Platform Channels, Platform View, Socket IO.

Odigo [🔗](#)

- A robot designed for **advertisement display** in public spaces such as malls and airports.
- Features **two mirrored displays** managed through a single controller. Includes a single control panel for robot operations.
- **Technologies Used** : Flutter, Platform Channels, ROS SDK, Socket IO.

Medigo

- A healthcare application that connects to medical devices via Bluetooth, allowing patients to: Track **blood pressure** and **ECG** data. Receive **medication reminders** and health notifications.
- **Technologies Used** : Flutter, BLE integration, Medigo SDK Integration.

Be My Hand

- An academic project aimed at connecting disabled students with writers for exams.
- **Technologies Used** : Flutter, Firebase Firestore.

DECLARATION

I declare that the above information is true to the best of my knowledge and Belief.
